Mark your diaries now for this one day Summit

**To highlight the principles and research that informs Women's Health Practice
To strengthen partnerships that will inform the NSW Women's Health Strategy
To showcase projects and innovation in service provision, system change and health outcomes**

WHNSW

**While we are developing the program of key note speakers
We would like your help to showcase women's health
outcomes.**

To showcase women's health outcomes, service provision and system change, you are invited to submit a one page description of your project.
The work will be showcased on display boards and tables around the room.

Projects must be not for profit, use a gender analysis, work from an understanding of social determinants of health and adhere to the principles of women's health care. Principles of Women's Health Care can be seen at www.whnsw.asn.au and are also articulated in NSW Health Strategic Framework to Advance the Health of Women www.health.nsw.gov.au/policy/hsp/women/stratdirwomen.pdf

Guidelines for the submission of presentations (poster or table information) are on the next page.
